Split the Bills

It can be an absolute faff trying to set up your bills – you’ve got to compare deals, pay multiple bills AND chase your housemates to cough up for their share. Split The Bills can save you the hassle of organising all of this faff. You’ll have just one bill to pay per month and every housemate is responsible for their own share. Plus, it only costs £1.50 per week – That’s cheaper than a tub of Ben and Jerrys!
